

Sept 2000

7) Numerous showers + TStorms over L.A. + extreme E Vtu Counties late afternoon

" Impressive dynamics worked with abundant mid + Hi-level moisture to allow plenty of showers + storm activity to develop across L.A. + ~~the~~ ext. E Vtu county.

Ext. dry low level caused much precip to evap. b4 reaching the ground."

Hard froes with meas. precip were E. San Gab, Uly Malibu area, E. Sta Monica's thru Beverly Hills + Hollywood Hills.

M.L. Inversion 400-700 ft.

19) Strong 599 High off N. Cal coast

109F @ Springfield

107F @ Chico + Arroyo Seco (MEX county)
