

19) Flash-flood watch for N. San Bern. county, G. Kern + S. Inyo County due to thunderstorms

Wk flow all levels. Air Mass mod. moist + unstable East + North of Daggett, dry + stable elsewhere

F.L. 13,000' w/ Upper low over Oregon

Strong Inv @ 3-4000 feet over coastal areas

22) Wk flow surf + aloft - air mass drier + more stable,

F.L. 14,000' Strong Inv @ 3,500'

23) Wk NW to N flow aloft F.L. 14,000 Strong Inv. @ 3,500'

24) Minor ridge moving over the district with a Pacific trough being ejected to the ENE. Desert trough (normal low) moving east.
M.L. 3000' Mod. on shore low, 13,000' F.L.

25) Short wave ridge over area - M.L. 1500-2000 feet

26) F.L. 15,000' Wk W - NW flow aloft - Atmos. dry + stable
M.L. 1000-1500 ft - Mod. on shore flow

27) M.L. 800-1800' + rising; Wk Upper trough over S. Cal.
F.L. > 15,000' - Upper low off Wash. Coast

28) M.L. \approx 3,500' Cyclonic SW flow aloft - trough off coast
F.L. - Var. mid + high level moisture - on shore flow

29) Upper level low off Monterey - Unstable air here
